

FORMFIT® HINGED LATERAL J

PRODUCT DESCRIPTION:

Formfit Knee Hinged Lateral J is a sleeve design knee brace with a breathable Lycra-material and open popliteal area with two removeable hinges and J-shaped buttress providing support to the patella. The knee brace is designed for patients that would benefit from realignment of the patella, and/or patients that would benefit from an added lateral support of the patella.

INDICATIONS FOR USE

Patients that would benefit from realignment of the patella, and/or patients that would benefit from an added lateral support of the patella.

- Lateral patellar subluxations and dislocations.
- Lateral patellofemoral malalignment.

FEATURES AND BENEFITS

- Breathable material
- Removable hinges
- Easy pull-on
- Lateral J buttress
- Open popliteal area

REQUIRED MEASUREMENTS

- Thigh Circumference: 6"/15cm above mid-patella
- Calf Circumference: 6"/15cm below mid-patella
